

BS-P678IP1

IP Powered Wall Mount Box Speaker

The BS-678IP1, which cabinet is made of wood, can be installed in a vertical or horizontal orientation. Either concealed in-wall wiring or exposed wiring can be used for speaker cable connection. The speaker structure that permits direct wall-mounting with screws prevents the speaker from falling easily even if an outward force is applied to. Two built-in 6 inch double cone IP speaker units deliver high quality sound.

Key features

- Can override and incorporate with local PA system without affect the central broadcast
- Local line input of IP powered speaker allow the speaker to broadcast messages from both network and local input with different priorities, ideal for classroom application.
- With built-in amplifier, allow the speaker to chain with one more ordinary speaker to provide larger coverage.
- Allow easy system expansion without difficult wiring and installation work.
