

HY-PW1

Wireless Charger

Description

- Uses high-quality aluminum alloy embedded tempered glass panel with four precise positioning holes
- Features wireless fast charging, ultra-quiet mode, and enhanced heat dissipation for high efficiency and convenience
- Intelligently recognizes different devices and matches batteries with safe current protection
- Automatically alarms or cuts off power upon detecting metal foreign objects, ensuring safety
- Equipped with multiple protection technologies including temperature, overvoltage, undervoltage, and overcurrent protection

Specifications

Mechanical	
Input current	5V/2A
Output current	5V/1A
Charging quantity	1 unit
Indicator light	dual-color indicator
Charging time	approximately 6 hours
